

Seeking the Summit!

Your donation is greatly appreciated!

Striving to reach the summit of a mountain—is a metaphor that has been compared with overcoming many of life’s unforeseen obstacles. At Therapeutic Adventures, we take great pride in being premier provider of adaptive outdoor programs (snow sports, water sports, wilderness adventures) and specialty therapeutic services for persons of all ages with differing abilities – (physical and developmental) disabilities, chronic health impairments, and other special health needs. Your support will enable us to offer greater access to the outdoors so that our clients achieve their potential!

Please help us to continue this important service journey!
